37 CFR 1.47 Notice by Publication

Notice is hereby given of the filing of a national stage application with a petition under 37 CFR 1.47 requesting acceptance of the application without the signature of all of the inventors. The petition has been granted. A notice has been sent to the last known address of the non-signing inventor. The inventor whose signature is missing (Joanne France) may join in the application by promptly filing an appropriate oath or declaration complying with 37 CFR 1.63. The international application number is PCT/GB99/00777 and was filed on 16 March 1999 in the names of Peter Carson, Joanne France, Rodney R. Brooks, and Michael Fowler for the invention entitled Coating Compositions and Processes. The national stage application is assigned number 09/646,505 and has a 35 U.S.C. 371(c) date of 30 July 2001.

Revision of the Notice of Allowance Form

The Notice of Allowance and Issue Fee Due form (PTOL-85) has been revised, and the revised form is entitled "Notice of Allowance and Fee(s) Due" (PTOL-85). Revision of the form was necessary to include the amount of any required publication fee, as provided in 37 CFR 1.211(e) and 1.311, and to more clearly communicate the amount of any patent term extension or adjustment earned under 35 U.S.C. § 154(b).

Beginning in November of 2001, the revised PTOL-85 form will be mailed when an application is allowed. Although the new form for a Notice of Allowance is already being mailed in any application with a positive patent term adjustment (*see* 35 U.S.C. § 154(b), effective May 29, 2000) when the application is allowed, the new form is currently being mailed only to communicate patent term adjustment and does not include any publication fee that may be required. In the interim a separate "Notice of Publication Fee Due" is being mailed. *See Interim Practice of Mailing a Notice of Publication Fee Due Separate From the Notice of Allowance*, 1248 *Off. Gaz. Pat. Office 166 (July 31, 2001)*.

As revised, the PTOL-85 form is three pages long, with all three pages being mailed to applicant and a duplicate being retained in the application file. Pages 1 and 2 of the revised form now include an indication that the publication fee is due, if the application was subject to publication and the publication fee has not already been

paid. The second page (Part B) of the revised form (the PTOL-85B) should be returned to the Office with payment of the issue fee. The PTOL-85B is labeled "TRANSMIT THIS FORM WITH FEE(S)" at the bottom. Applicants are reminded to transmit an extra copy of the PTOL-85B when payment of the issue fee is by way of authorization to debit a Deposit Account, so that the Office does not need to make a photocopy. *See Manual of Patent Examining Procedure*, Section 509.01.

There are three versions of page three of the revised PTOL-85 form, depending upon the filing date of the application.

(1) For applications filed before June 8, 1995, page three will state that "This application was filed prior to June 8, 1995, thus no Patent Term Extension or Adjustment is applicable under 35 U.S.C. § 154(b)." Utility and Plant applications filed before June 8, 1995 are eligible for a 17 year term and thus are not eligible for patent term extension or adjustment under 35 U.S.C. § 154(b).

(2) For applications filed on or after June 8, 1995 and before May 29, 2000, page three will state that "The patent term extension is __ days. Any patent to issue from the above identified application will include an indication of the __ day extension on the front page. If a continued prosecution application (CPA) was filed in the above-identified application, the filing date that determines patent term extension is the filing date of the most recent CPA." Utility and plant applications filed on or after June 8, 1995 and before May 29, 2000 may be eligible for patent term extension. *See* 35 U.S.C. § 154(b), effective June 8, 1995, and 37 CFR 1.701.

(3) For applications filed on or after May 29, 2000, page three will state that: "The patent term adjustment to date is __ days. If the issue fee is paid on a date that is three months after the mailing date of this notice, and the patent issues on the Tuesday before the date that is 28 weeks (six and a half months) after the mailing date of this notice, the term adjustment will be __ days. If a continued prosecution application (CPA) was filed in the above-identified application, the filing date that determines patent term extension is the filing date of the most recent CPA." Utility and plant applications filed on or after May 29, 2000 may be eligible for patent term adjustment. *See* 35 U.S.C.§ 154(b), effective May 29, 2000, and 37 CFR 1.702-1.705, especially 37 CFR 1.705(a).

United States Postal Service
Interruptions and Emergency Terminated

The tragic events in New York City on September 11, 2001, resulted in all Post Offices in the borough of Manhattan being closed. Currently, only the Church Street Post Office in Manhattan remains closed as a result of the events of September 11, 2001, and all other Post Offices throughout Manhattan are open for business. In addition, all Post Offices throughout the United States should be accepting the deposit of mail for delivery by Express Mail service. Therefore, the United States Patent and Trademark Office (USPTO) is terminating the postal service interruptions and emergency declared in the Official Gazette Notice entitled "United States Postal Service Interruptions", 1251 *Off. Gaz. Pat. Office* 55 (October 9, 2001), and posted on the USPTO website.

Any questions regarding this Notice should be directed to Eugenia Jones by e-mail at eugenia.jones@uspto.gov or telephone at 703-306-5586, for patent-related matters, or Carol Smith by e-mail at carol.smith@uspto.gov or by telephone at 703-308-8910 (ext 149), for trademark-related matters.

Some correspondence may only be submitted via the Office's electronic filing system (EFS). For example, the following publication requests must be submitted via EFS:

a request for publication of an application as amended during examination (37 CFR 1.215(c));

a request for redacted publication (37 CFR 1.217(b));

a request for voluntary publication of an application filed before November 29, 2000 (37 CFR 1.221(a)); or

a request for republication of an application that has already been published (37 CFR 1.221(a)).

Instructions on how to file such a publication request via EFS are located on the Office's Electronic Business Center on the Office's Internet Web site http://www.uspto.gov <http://www.uspto.gov>) under the Electronic Business Center section.

Reference Collections of U.S. Patents and Trademarks
Available for Public Use in Patent and Trademark Depository Libraries

The following libraries, designated as Patent and Trademark Depository Libraries (PTDLs), receive patent and trademark information for the U.S. Patent and Trademark Office. Many PTDLs have on file patents issued since 1790, trademarks published since 1872, and select collections of foreign patents. All PTDLs receive both the patent and trademark sections of the *Official Gazette of the U.S. Patent and Trademark Office* and numerical sets of patents in a variety of formats. Patent and trademark search systems in the Cassis optical disk series are available at all PTDLs to increase access to that information. It is through the optical disk systems and other depository materials that preliminary patent and trademark searches may be conducted through the numerically arranged collections.

Each PTDL offers reference publications which outline and provide access to the patent and trademark classification systems, as well as other documents and publications which supplement the basic search tools. PTDLs provide technical staff assistance in using all materials.

All information is available for use by the public free of charge. However, there may be charges associated with the use of on-line systems, photocopying and related services.

Since there are variations in the scope of patent and trademark collections among the PTDLs, and their hours of service to the public vary, anyone contemplating use of these collections at a particular library is urged to contact that library in advance about its collections, services, and hours in order to avert possible inconvenience.

Partnership PTDLs provide enhanced and expanded services for which fees are charged. They offer on-line patent text and image searching, on-line trademark searching, and videoconferencing for examiner interviews and workshops. They accept disclosure documents on site, order file wrappers, assignment documents and certified copies for their customers, and host a variety of seminars aimed at specific audiences, including practitioners, paralegals, and independent inventors. Currently, partnerships are located at the Great Lakes Patent and Trademark Center (GLPTC) at the Detroit Public Library in Detroit, Michigan and the Sunnyvale Center for Innovation, Invention and Ideas (SCI^3) at the Sunnyvale Public Library in Sunnyvale, California and at the South Central Intellectual Property Partnership at Rice (SCIPPR) at the Fondren Library of Rice University in Houston, Texas.
